

Product certification Rules for the use of certificates and certification marks

Certificate

The certificate^{*)} in PDF format is to be considered as an original and is used in its entirety (all pages) when communicating with customers and other interested parties.

RISE provides information about the status of the certificate and, in some cases, a copy of the certificate. Valid certificates or certificate data are in some cases published on <u>www.ri.se</u>.

Certification mark with RISE-logotype The certification mark can be used by the certificate holder in various marketing purposes.

The mark shall primary be applied to the product and, or if this is not possible, on the product packaging or accompanying documentation, such as assembly instructions, user manual, delivery note.

The mark shall only be used on the products covered by the certification. It shall be used so that marked products cannot be mixed up with unmarked noncertified products.

The mark can also be used on documents or promotional materials with clear information about which certified product the mark refers to. When the mark is used, it should be in conjunction with the certificate holders company name and the certified product.

The mark must not be distorted or diminished so that it becomes illegible. The mark is reproduced in black and white. Valid marks are provided by RISE Certification.

These rules apply in combination with the rules for use of marks specified in the certification rules and certificates. In case of contradictory information, the rules in this document shall apply.

The certification mark is owned by RISE.

Other marks

Other marks that do not have a RISE logo should be reproduced in the color it was delivered. RISE does not own the mark but monitors the use. Otherwise, the same terms of conditions apply as for RISE logo marks.

Monitoring

RISE will in various contexts monitor that the use of the mark follows these rules.

Products that do not comply with the rules in this document and any requirements specified in the certification rule and certificate shall not be provided with the certification mark.

*) The term certificate includes e. g. certificates, type-examination certificates, type-approval certificates, production control decisions.

RISE Research Institutes of Sweden AB

Certification PO Box 857, 501 15 BORÅS Telefon: 010-516 50 00, Telefax: 033-13 55 02 E-mail: certifiering@ri.se, Internet: www.ri.se The certificate holder is obliged to remove any marking that does not comply with these rules.

Use of a certification mark or certificate that does not comply with these rules may result in legal actions.

Uncertain?

In case of uncertainty about the application of these rules, please contact RISE Certification via certifiering@ri.se.
