CoComm

# About Cocomm

Flexible and scalable like a mobile, secure like a fixed landline. Cocomm is leading a new generation of connectivity: **hybrid telephony**. Their aim is to be the preferred choice of communication and connectivity for operators, businesses and public administrations. More than one million devices are already in use in enterprises in Europe, Latin America and Africa. Our history is recent, but intense: in just 7 years, since the launch of the company in 2014, CoComm has changed traditional telephony forever. Here are some of their highlights.

## The **technology**

Offices are no longer what they used to be, the workplace is now digital and the 100% face-to-face model is a thing of the past. The present and future of the workplace is all about hybrid employ ability and CoComm's new generation of phones are key to achieving this.

CoComm is leading the future of universal, 100% mobile, flexible and scalable connectivity, which will forever transform communication between companies, employees, industries, administrations and individuals.

## Flexible

Change desk, office or country.  
Your CoComm goes with you.

## Mobile

No cables, no installation, no  
maintenance. 100% mobile.

## Scalable

Grow as much as you need without  
changing your infrastructure.
