Online symposium series:

Formulated products: Dos, don’ts, tools and current trends

15 and 16 September 2020

Who are these symposia intended for?
The symposia targets product developers, engineers, scientists and problem owners working with formulated products or advanced materials, regardless of the industrial sector. The seminars are relevant for raw material suppliers and anyone working with pharmaceutical, home & personal care, cosmetic, food, agrochemical, coating & inks, adhesives or composite products.

What will these symposia give me?
Attendees will get the opportunity to learn about guidelines and the latest developments in connection to key base technology areas and formulation development tools. Aspects around sustainability, bioderived and biomaterials in formulations will be addressed in a separate session. It will be possible to register for the 3 sessions of the series or for any of the individual sessions.

Program
Session 1: Base technology areas: Dos and Don’ts and new developments. 15 Sept 09:45 14:10 CET
Session 2: Generic formulation tools. 16 Sept 09:45-12:30 CET
Session 3: Bioderived and biomaterials in formulations. 16 Sept 13:30-16:30 CET

Documentation
Participants receive electronic copies of the presentation material.

Fee
The symposia are free of charge.
Language
English

Venue
The symposia will be held online, in real time, using the video conferencing and online meeting platform Zoom. To join there is no need to have any specific software or login. Participants will only need a link and a password that will be provided after registration.
